

Wayne County Airport Authority Small Business Enterprise (SBE) Program

SBE Development Contracts

SBE Development Contracts are contracts solicited exclusively for SBE responses. These contracts further WCAA's initiative to increase small business participation and growth; they are designated by the WCAA Procurement Administrator based on the type, category, size, and cost of the project, in accordance with the WCAA Procurement & Contracting Ordinance.

To be solicited as an SBE Development Contract, the Procurement Administrator must determine that 3 or more SBEs are available and willing to provide the desired construction, goods, or services. Additionally, the contract must be one of the following combinations of type and value:

- Construction contract \leq \$1,000,000 in which the contractor will not be a Specialty Trade Contractor (NAICS Subsector 238)
- Contract \leq \$500,000 in which the contractor is a Specialty Trade Contractor (NAICS Subsector 238)
- All other contracts \leq \$200,000
